

## ITALIAN•WATCHES: MECCANICHE VELOCI

Italian watch producer Meccaniche Veloci offer the best from two worlds, Italian design and 'Swiss Made' engineering, perfectly fused together.

Taking inspiration from the world of motors, their innovative designs are based on vehicle parts. The symbol of the brand is the piston with the four sub dials. The first model and their best known collection was appropriately named after this vehicle part; *Quattro Valvole*.

The brand has expanded their collection with several lines, Classic, Luxury and Limited Edition. Precise, delicate and elegant style, and the best of Italian design.

Completely different to any other watches are the RACE and AIR lines, based on components from the world of motors sports and aeronautics. The dials all have details from motorbikes, sports cars, helicopters and military aircraft bodies.

Meccaniche Veloci have since their launch in 2006 offered highest quality watches. The watches are manufactured, assembled and controlled in Switzerland. Offering extreme precision timepieces, and the brand is proud to be 'Swiss Made'. For the CCM Limited Edition they have collaborated with another Italian company, Brembo. -A world leading company within braking systems.
